BACKGROUND:

Title I-B of WIA authorizes a workforce investment system to provide workforce preparation and employment to eligible adults, dislocated workers and youth. Section 661.120 of the WIA regulations provides authority to states and local governments to establish their own policies, procedures and definitions, as long as they are consistent with WIA and its regulations. In order to develop guidelines for the WIA eligibility process, staff from the Workforce Investment Division of the State Employment Development Department (EDD) collaborated with an Eligibility Advisory Workgroup, which was convened by the representatives of the California Workforce Association. The Workgroup was comprised of managers and staff from eight California LWIAs. With assistance from the Workgroup and technical support from U.S. Department of Labor, EDD finalized the WIA Eligibility TAG and it was formally issued in connection with WIA Directive WIAD03-5 (dated July 31, 2003). The Directive was later revised and replaced by State WIA Directive WIAD04-18 (dated March 29, 2005), which included an updated Eligibility TAG. The County’s WIA Eligibility Directive and TAG are based on the most recent State Directive and Technical Assistance Guide.

The County’s eligibility policies expressed within this Directive and the attached TAG reflect the following features of the WIA regulations at 661.120:

Local areas should establish policies, interpretations, guidelines and definitions to implement provisions of title I of WIA to the extent that such policies, interpretations, guidelines and definitions are not inconsistent with the Act and the regulations issued under the Act, Federal statutes and regulations governing One-Stop partner programs, and with State policies.
